Kentucky STOCK FARM

(BLUE GRASS)

FOR SALE OR LEASE.

I will sell, or lease for a term of years, MILL-ROSE STOCK FARM, the home of the late W. T. Dudley, situated within one mile of Frankfort, Ky., on the Lexington turnpike, and L. and N. Railroad, containing 265 acres, which may be divided into two tracts, one containing 165 acres, with the residence and improvements, and the other 100 acres with one tenement house.

The soil is rich, producing large yields of tobacco, wheat, corn, etc., and there are five never-falling springs of limestone water on the place.

The residence is of brick, with ten rooms, located on a commanding eminence and surrounded by forest trees. Improvements include two large stables, two large tobacco barns and other farm buildings all in perfect repair, and a fine orchard of best fruits, now in full bearing. An excellent half-mile track may be made on the place.

This farm has all the requisites for a first-class stock farm, offering special advantages for raising and training horses, the greater part of it being now well set in blue grass. Will take \$20,000 for the whole place, one-quarter cash, balance in one, two and three years, with interest, or will lease for five years at \$2,000 per year.

For further particulars address FRANK CHINN, Attorney, Frankfort, Ky.

About Ready For Work

The Census Bureau at Washington About Organized.

THE COLLECTION OF STATISTICS.

Has Already Been Begun—Superintendent Porter Proposes Pushing the Work as Rapidly as Possible, Although the Enumeration Will Not Begin Until January. Other Washington News.

WASHINGTON, Sept. 24.—The work of the census bureau is now about organized. Although the actual enumeration of the people does not begin until next June, yet that has become the smallest part of the work performed at the decennial census of United States. The statistics of manufactures, commerce, etc., covering a period of ten years, requires the labor of a large number of special agents and an organization of the work that must be complete and efficient in order to produce the best results.

In order that the system of carrying on the business of the office may be as perfect as possible, Superintendent Porter has apportioned the entire work among eighteen chiefs of as many divisions and their subordinates. The organization of the office is in accordance with what it was on Sept. 24, ten years ago. As is well known, it is Mr. Porter's purpose to complete the work of the census as soon as possible after the retail enumeration of the population has been completed. He has for this reason finished the preliminary work, completed the organization of the office, and is now prepared for the collection and compilation of statistics. In fact the collection of statistics has already been begun.

Mr. Porter has appointed Richard P. Rohwell, of New York, editor of the The Engineering and Mining Journal, chief special agent, to take charge of the collection of the statistics of gold and silver for the eleventh census. This is regarded as by far the most difficult among the mining industries, particularly for the matter of showing the production of states. This is on account of the increasing practice of mining ores in one state, and smelting them in another.

Mr. Rohwell, with other members of his staff, including Albert Williams, Jr., is probably more familiar with recent progress in gold and silver smelting than any one else in the United States. He has been engaged in the collection of mineral statistics for many years.

Superintendent Porter has also appointed Baird Halberstadt, of Pittsburgh, Pa., a special agent to assist in the collection of coal statistics. Mr. Halberstadt is familiar with the coal mine of Pennsylvania and will be assigned to duty with Special Agent Ashburner, at Pittsburgh.

Representatives to the Marine Conference.

WASHINGTON, Sept. 24.—The department of state is officially informed that Vice-Admiral Kaznakoff, chief inspector of marine artillery, has been appointed by the Russian government its representative at the approaching international marine conference.

The department has been officially notified that the following persons have been appointed to represent the imperial German government at the Washington international maritime conference, viz: Dr. Siemen King, president of the supreme court of Hamburg; Capt. Kensing, of the German navy; Mr. August Hezel, consul general of Germany at New York city; Privy Councillor Donner, of the German navy, a captain on the retired list; also that Baron Hermann Despaun, imperial and royal rear admiral, will represent Austria-Hungary in the conference.

How Douglass Will Get to Hayti.

WASHINGTON, Sept. 24.—The state department has taken steps to prevent Frederick Douglass being subjected to any inconvenience in traveling, on account of his color while on his way to assume his duties as minister of the United States to Hayti. The United States steamship Dispatch will convey Mr. Douglass from Washington to Fortress Monroe, a distance more than 200 miles, and thence he will proceed to Hayti, as has been already stated, on the Ossipee. Mr. Douglass, in an interview, said he might be subjected to some inconvenience while going to Fortress Monroe, and the state department secured the Dispatch from the navy department to prevent such a possibility.

Roosevelt Not a Candidate.

WASHINGTON, Sept. 24.—Civil Service Commissioner Roosevelt has returned from his vacation, which he spent in Idaho, bear and deer hunting. He said in regard to the newspaper talk about his being a candidate for the senate from North Dakota that there was nothing in it, and the first he had heard of it was when he came east. "I may be what in New York is called a 'summer candidate.' A 'summer candidate' is one who is run in the newspaper and is almost elected by his friends, but when the real election comes on in the fall is never heard of. No, I'm not a candidate."

Mail Robbers Arrested.

WASHINGTON, Sept. 24.—Chief Post-office Inspector Rathbone is informed of the arrest of Alexander Finley, assistant postmaster of Argo, Cal., for robbing registered letters. Also of the arrest at Seattle, W. T., of William Hewson for opening valuable mail.

BUTTE, Mont., Sept. 23.—M. Matthews, a wealthy railroad contractor of St. Paul, prominent all over the northwest, died in Al Lung's opium joint after smoking ten pipes yesterday. The Chinaman is under arrest.

DEATH OF WILKIE COLLINS.

The Noted English Novelist Died at His Home in London.

LONDON, Sept. 24.—William Wilkie Collins, the novelist, who has been seriously ill for some time, died yesterday.

Mr. Collins was the son of William Collins, the English painter, and was born in London Jan. 25, 1824. After being educated at a private school and serving two years with his parents in Italy, he was articled for four years to a firm in the tea trade. Exchanging a career for law, he was a student in Lincoln's Inn at the time of his father's death, and his first literary performance was an admirable biography of him, with selections from his journals and correspondence.

He devoted himself from this time entirely to literature, and published successively, between 1840 and 1877, "Antonina, or the Fall of Rome," "Raffles Beyon Railways, or Notes in Cornwall," "Basil," "Mr. Wray's Cash Box," and "Hide and Seek," life soon after became a contributor to "Household Words." All his late novels originally appeared in this periodicals. The principal of the novels, "The Queen of Hearts," "The Woman in White," "No Name," "Armed and Dangerous," "The Moonstone," "The New Magdalen," (two volumes), made a number of contributions to journals. He has also written three dramas: "The Froe in Deep," "The Light-house," and "Black and White." At the end of 1873 he visited the United States, where he gave public readings from his works in the principal cities.

A Public Rail Accident.

SPRINGFIELD, Mass., Sept. 24.—While a two-ton stone was being swung in a place yesterday by Norcross Brothers workmen, it struck train No. 4 on the New York, New Haven and Hartford railroad, just as it was crossing Main street, and crushed into one of the cars. Three of the passengers were severely injured. Daniel Callahan of Hartford, had two ribs broken and suffered a dislocation of the shoulder. Mrs. Abbie Callahan, his wife, had her left shoulder bruised and received a wound on the head. Kate Dannemay, of Holyoke, received a wound in the temple which resulted in a concussion of the brain. The accident could not have been averted, the stone getting beyond control of the workmen.

Publishing House Failure.

CHICAGO, Sept. 24.—The mammoth publishing house of Belford, Clarke & Company, which has a large establishment here and branches in New York and San Francisco, has failed. The assets are estimated at between \$200,000 to \$300,000, and the liabilities at least \$400,000. The heaviest creditors are in New York and San Francisco. A receiver has been appointed, who will continue to publish Belford's Monthly, a magazine which the firm has been publishing for some time, and which has a subscription list of over 25,000.

A Locomotive Wrecked.

ITHACA, N. Y., Sept. 24.—The Delaware, Lackawanna and Western railroad train due here at 5:40 yesterday evening, met with an accident as it was descending the heavy grade by which the road reaches this city. A spreading of the rails threw the locomotive from the track and down a steep embankment. The locomotive was completely wrecked and Engineer Orlando Seeley was instantly killed. All of the coaches remained on the track, and none of the passengers were injured.

At Deer Park.

DEER PARK, Md., Sept. 24.—It is rumored that President Harrison is considering A. B. Campbell, of Kansas, for pension commissioner. Private Secretary Halford said that the appointment might hang over until the president went back to the capital. Gen. Nathan Goff was expected last night to accompany the president's party on the West Virginia trip, but he telegraphed at a late hour that he could not go. Mr. and Mrs. Robert McKee left last night for Indianapolis.

Skipped Away in Time.

YOUNGSTOWN, O., Sept. 24.—Officers from Meadville, Pa., are searching for Gus Williams, who formerly resided here, but for two years past has been in the laundry business in Meadville. Williams, who is the head of a family, betrayed Julia Carmon, aged 17, and afterward secured the services of a Meadville physician, and an abortion was performed, from the effects of which the girl died last Wednesday. Williams left town before the officers arrived.

An Umpire Mobbed.

BROOKLYN, N. Y., Sept. 24.—In the ball game yesterday between the Brooklyn club and Columbus, Umpire Hengle called the game at the end of the eighth inning on account of darkness with a score of 2 to 3 in favor of Columbus. Brooklyn had already tied the score in the ninth inning when the game was called. The umpire was then set on by a mob, but was rescued and taken from the field by four policemen.

At Jail.

ELMIRA, N. Y., Sept. 24.—A young man named Maxwell Straub, of Reading, Pa., who was arrested here on Friday last charged with intoxication, died in jail yesterday afternoon. Physicians have decided that Straub died from an overdose of a drug of some kind, and it is now believed that the young man was drugged and robbed. The coroner is investigating the case.

Recovering the Dead.

Several More Bodies Taken From the Ruins at Quebec.

FIFTEEN PERSONS STILL MISSING

A Large Force of Men at Work Removing the Debris—Another Catastrophe Feared, in Which Nine Hundred House are Threatened With Destruction.

QUEBEC, Sept. 24.—About sixty men employed by the city are now working at the debris of last Thursday's disastrous slide with steam engines and derricks. The work progresses rapidly. The following bodies are supposed to be located near where the men are working: Michael Bradley's two children, Thomas Pemberton, Joe Kemp, Mrs. O'Dowd, Robert Lawson's child, Richard Maybury, wife and son, Henry Black, John Henry and wife, an old woman visiting the Henry's, and two sailors, names unknown. Persons well acquainted with the locality, however, say that the number missing is greater than fifteen.

The bodies of Thomas Nolan and wife were found late yesterday locked in each other's arms. George Miller, a young Maybury will be buried tomorrow. Dennis Berrigan, son of John Berrigan, who died on Saturday, died yesterday. His back was broken. The remains of his father were buried a few hours before his son's death. The body of Mrs. McManion, who was visiting a friend at the time of the slide and was entombed in the ruins, was found standing erect.

Maj. Mayne, of the royal engineers, and several other engineers, are making an examination. A newly discovered crack runs 200 feet under the southeast end of the Dufré in terraces and divides it in two wedge-like segments. It has widened in three days from a few inches to about five feet and is the prime factor of the dreaded second avalanche.

The engineers express the opinion that the houses in Champlain on both sides and on the whole length of the street, numbering about 900, should be deserted at once. The continual chemical dissolution of the face of the rock threatens its demolition. Another catastrophe may soon be recorded if means are not taken to remove the occupants of the houses in the dangerous locality.

KNIGHTS OF LABOR.

A Report That Money is Scarce and That the Lecturers Have Been Called In.

PITTSBURGH, Pa., Sept. 24.—The Executive board of the Knights of Labor have been suspended because of there being no money in the general treasury; also that all the general lecturers, with the exception of Mr. Wright, have been called in for the same reason.

What is Said at Headquarters.

PHILADELPHIA, Sept. 24.—"I do not consider it worth while to either affirm or deny the rumor," says General Secretary Hayes. "It is from Pittsburgh that all stories prejudicial to the Knights of Labor come. They are put in circulation by men who were at one time active workers in the organization."

Executive Committeeman Wright says: "The general fund cannot be drawn upon, and if the lecture fund happens not to last the full year the lecturers have to be idle until the next appropriation becomes available." A meeting of the executive board has been called for Monday, Oct. 7, at St. Louis.

SENSATIONAL ARREST.

Well Known Attorney Arrested For Fraudulently Collecting Pensions.

YOUNGSTOWN, O., Sept. 24.—A sensation was caused here last night by the arrest of George S. Swanson, a well known attorney. The arrest was made at the instance of United States Detective F. H. Pipes, of Washington, who charges Swanson with fraudulently collecting pension money by impersonating a dead man. It appears Swanson secured a pension of \$30 per quarter for Henry Pope in December, 1886. One year later Pope died. Swanson continued to get his mail at a country post-office, and by forging the names of witnesses and Pope, and as notary acknowledging the same, continued to draw the money for one year after Pope's death. The pension department learned of the transactions through a once-friend of Swanson, who swore vengeance for a certain legal transaction, and an officer was sent here with the above result. Swanson was taken to Cleveland.

Trial Trip of the Charleston.

WASHINGTON, Sept. 24.—The official report on the trial trip of the Charleston has been received at the navy department. The penalties of the Union iron works of San Francisco, which built the vessel, will be about \$20,000 for horse power undeveloped.

Eighteen Inches of Snow.

FABAYAN HOUSE, N. H., Sept. 24.—Snow has fallen on Mount Washington for the last five days and is now eighteen inches deep. No train was run to the summit last night owing to the depth of snow and the track had to be shoveled out before trains could make the ascent. This is the first clear day of this month.

Dropped Dead on the Street.

NEW YORK, Sept. 24.—Miss Elizabeth McCormack, an elderly lady of No. 72 West Forty-fifth street, dropped dead while walking on Fifth avenue last evening in company with another lady and the Rev. D. Parker Morgan, of whose church she was a member. The cause of her sudden death is not yet known.

THE PERTH, IND., MINERS

Prevailed Upon to Remain Out a Few Days Longer.

BRAZIL, Ind., Sept. 24.—The No. 8 miners at Perth, who last Thursday voted without a dissenting voice to resume at the operators' offer, were waited upon Saturday and Sunday by delegations from the striking miners, as well as by members of the central relief or executive committee. Their action was earnestly protested against, and they were besought to stay out till Thursday, when it was said, all strikers would return at once. This would secure equal concessions to all alike, and would indicate union and harmony.

Word has been received that the No. 8 miners, yielding to the pressure, and in view of the promise made, voted publicly to post one their return to work until Thursday. However, many of the miners said privately that this was but an easy way of getting rid of the delegation, and that they would return to work as originally agreed. Thirty "blacklegs" are at work in the mine, independent of the sixty-five who voted to return.

Long Strike Terminated at

LANCASTER, Pa., Sept. 24.—The long strike at the Columbia rolling mills was declared off at a meeting of the Amalgamated association Saturday evening. Most of the strikers' places have been filled with non-union men and these will be retained. The strike lasted nearly seven months.

The Spokane Falls "Boodler."

PORTLAND, Ore., Sept. 24.—A Spokane Falls special says the trial of the alleged "boodler" in connection with the citizens' relief fund is in progress. The first of defendants to be put upon trial was Maj. S. D. Waters, a member of the city council, also commissary general of the National guards of Washington Territory. The chief clerk of relief committee testified that he had permitted Waters to take a load of provisions to his residence upon his representations that he was unable to purchase elsewhere and would pay for them. William Seahorn, an express wagon driver, testified that he hauled two loads of supplies to Waters' residence under that gentleman's orders. Waters had instructed him to go around the back way and not let any one see him deliver the goods. For hauling Waters had presented him with two pairs blankets which had been taken from relief tent.

Can Dissolve the Hardest Stone.

ST. PAUL, Minn., Sept. 24.—A Bohemian stonecutter of this city, named August Boorfried, has discovered a combination of chemicals by the use of which the hardest stone can be dissolved and cast into any desired shape, the casting being as hard as flint, and capable of taking on a brilliant lustre. It varies in color according to the stone used, and can be had from a bright red to an azure blue. While in the fluid it can be used for coating anything having a stone or glassy surface. Mr. Boorfried claims that car wheels and rails can be made in this way. He will start for the east in a few days to secure the backing of wealthy capitalists.

Killed at a Cake Walk.

CULPEPER, Va., Sept. 24.—An unprovoked murder occurred Saturday night on the farm of Sam Jones about four or five miles from this place. It seems some negroes were having a Saturday night fair, or cake walk, at the house of James Fitzgerald. During the evening one of the negroes present kissed the wife of Fitzgerald, whereupon the latter seized his gun and fired at his wife, the whole charge striking her in the left side, making a fearful wound. She fell and expired in about fifteen minutes. Fitzgerald coolly walked up stairs and went to bed. He was arrested and is now lodged in the jail here.

A Lost Mine Found.

MONTREY, Cal., Sept. 24.—One of the Foreman boys, who live near the head of the Carmel river, has found the long-lost mine known by early settlers as the "Maria Roman mine." It has often told how this Indian woman used to go away and in the course of a few days would return with large amounts of ore, which she would assay herself. Where the mine was located has always been a mystery. The news has created great excitement here, and all parties are making preparations to go to the mine. Many candlesticks used in the old Carmel mission are made of silver from the mine.

The Cronin Case.

CHICAGO, Sept. 24.—Seventeen venemans were excused for cause in the Cronin trial yesterday. Two were temporarily passed by the state, one of them being partially examined by the defense when the court adjourned for the day. The state used two peremptory challenges. At the opening of court in the afternoon Judge McConnell denied Woodruff's request for release.

Sunset Cox's Will.

NEW YORK, Sept. 24.—The will of the late S. S. Cox has been filed for probate. All of Mr. Cox's real and personal estate is left to his widow. The will is dated Aug. 29, 1888.

Man and Wife Arrested for Murder.

BROOKVILLE, Ind., Sept. 24.—Wilber M. Collier and Ellen Collier, his wife, were arrested Friday, charged with the murder of John Collier, a twin brother of Wilber. They waived a preliminary examination, and were remanded. The testimony given at the coroner's inquest was very damaging to the defendants.

Not a Dynamiter.

CINCINNATI, Sept. 24.—Howard Douglass, the well known attorney traveling abroad, was suspected of being a dynamiter and taken prisoner in Germany. The mistake arose out of the use by Mr. Douglass of an asthma cure which was mistaken for the deadly explosive.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors

TUESDAY, SEPT. 24, 1889.

The number of patents granted during the past fiscal year is reported at 21,518. Over 26,000 applications were filed. No nation can down the U. S. when it comes to "invent" things.

DELAWARE has gone back to by-gone methods of punishment and adopted the whipping-post and the pillory. Those who advocate the lash for petty offenders should go join the Delawarians.

The late Cincinnati Conference of the M. E. Church, at Xenia, O., adopted a report "holding that no divorce, except for adultery, shall be regarded as lawful, and that no minister shall solemnize marriage when either has been divorced, save as above stated."

The secret ballot system will be given a test at the next election in Connecticut. It will almost certainly result in less corruption at the polls, and the sooner it is adopted in every State the sooner will the "blocks-of-five" business of Dudley and his ilk be ended.

Even the Cincinnati Commercial Gazette, that rampant Republican journal, doesn't seem very much pleased with some things President Harrison has done. A few days ago it remarked that no excuse is needed for the removal of Tanner; what is needed is an explanation of his appointment.

SENATOR PUGH, of Alabama, has been up in Boston and he says he was surprised to find the manufacturers wanting "free coal, free lumber, free iron ore, free pig iron and free fish." They seem to be getting their eyes open at last, and there is a growing sentiment in favor of a substantial reduction in the tariff.

THERE will be no mossbacks in the State Commercial and Immigration convention that meets to-day in Louisville. The meeting will be composed of wide-awake citizens of Kentucky, those who are alive to the future growth of the State, and the development of her untold resources. A few determined men can work wonders, and many of those who meet to-day at Louisville will no doubt live to see the good results that must surely follow the praiseworthy cause in which they are engaged.

REPUBLICAN papers are as wide apart in their opinions of Tanner as many of them were in explaining the recent increase in the public debt. The Columbia Herald is moved to remark that "Tanner did the best he could. If he erred let the mantle of justice cover it. He goes out with our blessings." On the other hand, the Barbourville News, also a Republican journal, has no doubt that the Corporal "erred," and frankly says: "Tanner is gone and we are glad of it. Pensions are a good thing, but the late Commissioner was 'getting there' with altogether too much facility and rapidity."

THE wealth of this "great and glorious land" is fast being gobbled up by the favored classes, and at the present rate it will not be many years before the masses will be serfs to the money kings. Thos. G. Shearman produces statistics in a recent issue of the Forum, which are striking in some respects. He says: "As lately as 1847 there was but one man in this country who was reported to be worth more than \$5,000,000; and though some estimated his wealth at \$20,000,000, there is no good reason for believing it to have been so great. At the smallest reasonable estimate, there must be more than 250 persons in this country whose wealth averages over \$20,000,000 for each. But let us call the number only 200. Income-tax returns show that the number of incomes, when arranged in large classes, multiplies by from three to five-fold for every reduction in the amount of one half. For extreme caution, however, we estimate the increase in the number of incomes at a very much lower rate than this. At this reduced rate, the amount of wealth in the hands of persons worth over \$500,000 each in the United States would be about as follows: 200 persons at \$20,000,000, \$4,000,000,000; 400 persons at \$10,000,000, \$4,000,000,000; 1,000 persons at \$5,000,000, \$5,000,000,000; 2,500 persons at \$2,500,000, \$6,250,000,000; 7,000 persons at \$1,000,000, \$7,000,000,000; 20,000 persons at \$500,000, \$10,000,000,000, total, \$36,250,000,000. This estimate is very far below the actual truth. Yet, even upon this basis, we are confronted with the startling result that 31,000 persons now possess three-fifths of the whole national wealth, real and personal, according to the highest estimate (\$60,000,000,000) which any one has yet ventured to make of the aggregate amount. Nor is this conclusion at all improbable."

DEMOCRATS are taking no step backward in the fight for tariff reform. Kentucky Democracy led off and re-affirmed the St. Louis platform. Says an exchange: "Virginia wavered a little, having local concerns of great interest and of paramount importance, but Ohio wheeled into line with a will, and Mr. Campbell, who has had his doubts heretofore, planted himself firmly at the head of the reform column. New Jersey was emphatic, and then came Pennsylvania, the State of Mr. Randall, repudiating Danism and Randallism, and pledging its hearty support to every practical measure for tariff reform in a set of resolutions that are models of directness and clearness. The Northwest speaks through the Iowa Democrats, declaring that protection is a delusion and a snare, that it simply breeds trusts and robs the producer for the benefit of a few rich capitalists."

There is to be no wavering on this question. Democrats "mean business," and the battle for the people's cause is to be continued until the victory is won.

THE Toledo Commercial, a Republican paper, asserted before the late Republican convention in Ohio that "if Governor Foraker should be a candidate for reelection for Governor, or if he should name the candidate, whether it be Bushnell or anybody else, his throat would be cut from ear to ear." Foraker is the nominee. There may not be any throat-cutting, but the indications point to a good deal of scratching.

THE MARKETS.

Tobacco.

Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.

Sales on our market for the week just closed amount to 2,940 hds. with receipts for the same period amounting to 2,973 hds. Sales on our market since January 1st amount to 102,511 hds. Sales of the crop of 1889, on our market up to this date amount to 71,470 hds.

The sale of burley tobacco during the week have as usual shown a large pre-ponderance of low grades. The market has shown rather more animation than it did at the close of last week, but prices have not been up to the standard of ten days ago. The weather conditions continue favorable for maturing and curing the growing crop, which is estimated to be in acreage about 75 per cent. of the crop of last year as far as the burley production is concerned.

The following quotations fairly represent our market for burley tobacco crop of 1888:

Trash (dark) or damaged tobacco	\$ 2 50	4 00
Col. 1st grade	4 50	7 50
Common lugs, not colory	4 00	6 00
Colory lugs	8 00	11 00
Common lugs	6 00	13 00
Select or winnery leaf	18 00	33 00

The warrant against Rosenfield was dismissed and he was discharged.

MEETING OF METHODISTS.

Work of the Annual Session of the Kentucky Conference at Ashland—Appointments.

The annual meeting of the Kentucky Conference of the M. E. Church, in session at Ashland the past week, closed yesterday, and Rev. Thomas Hanford, of this city, Rev. P. H. Ebricht, of Germantown, and Rev. W. H. Childers, of Tollesboro, returned last night. Bishop Merrill, who was at one time Presiding Elder of this district, presided.

The sum of \$1,100 was raised during the meeting for the Preachers' Aid Society. The invested funds of this society now amount to \$16,000.

Delegates were elected to the Ecumenical of Methodism to be held in 1892. J. D. Walsh and E. L. Shepard were elected for the ministerial, and Amos Shinkle and B. P. Tevis laymen.

At the afternoon session on Friday, Dr. Stevenson, President of the Union College, reported \$1,500 invested for the Barbourville school. Mrs. Fanny Speed is the donor of the money. Dr. Stevenson made an address upon the work of the church in Southeastern Kentucky. John Eads represented the Ashland Collegiate Institute, the valuable property of which has recently come to the conference by gift of R. D. Callihan, of Ashland.

The increase in benevolent collections the past year was over \$1,000.

Barbourville was fixed as the place of meeting next year. Rev. J. H. Herron was located at his own request. G. M. Clarke was made supernumerary, with a claim. Both are in poor health, the former being troubled with some disease of throat which prevents his preaching much.

The appointments were announced yesterday. No change was made as to the Presiding Elder of the Maysville District, Rev. Amos Boreing being retained in that position.

The members of the M. E. Church of this city and the citizens irrespective of denomination will be gratified to learn that Rev. Thomas Hanford was returned to Maysville. Rev. W. H. Childers was assigned to Chester. He will preach also at Sand Hill and Thompson Chapel. Rev. P. H. Ebricht was returned to the church at Germantown. Rev. G. M. Jolly was assigned to Sardis and Murphysville, and Rev. J. E. Foster to Tollesboro. Rev. Mr. Sutton received the appointment at Augusta. The church at Foster will be in charge of Rev. H. C. Northeatt this year. Rev. Theo. F. Garrett, formerly of Sardis, was returned to Shinkle Chapel at Covington. Rev. Henry Tackley, D. D., was transferred from Main street church at Covington to the Centenary of Lexington, and Rev. J. D. Walsh, formerly of this city, was assigned to Wesley Chapel, Louisville.

Next year will be the Centennial of Methodism in Kentucky and steps were taken to celebrate the event in a becoming manner. Rev. Thomas Hanford favored conferring with the M. E. Church, South, and having the two branches of the denomination unite in the celebration.

The Maysville church will have a separate celebration of the centennial. The date has not been fixed yet. Among those who have been pastors or Presiding Elders of the church in the past the following are living and will be invited: Bishop Merrill, Revs. Reasoner, Sanders, Vancleve, Johnson, Stewart, Slavens, Leslie, Easton, Boreing, Lashbrooke, Clayton and Black.

Here and There.

Mr. John M. Hunt has returned from New York.

Miss Emma Owens, of Midway, is visiting Miss Nettie Warren, of the West End.

Miss Mollie Marrison, the evangelist, was in town yesterday and this morning, the guest of Miss Anna Cone.

Mrs. D. M. Hawkins and daughter Miss Julia, of Walnut Hills, Cincinnati, are visiting Mrs. A. B. Miner, of West Second street.

Dr. Magnus T. Hopper and Dr. W. F. Honan leave this evening on the F. F. V. for New York, the former to resume his studies at the Aomeopathic College while the latter will resume his position in one of the hospitals at Brooklyn. They will spend a few days in Washington City on their trip East.

The Ladies Delighted.

SECTION 7 of the General Statutes of Kentucky says: "That no person shall catch, kill or pursue with such intent, or have in possession after it has been caught or killed, any quail, partridge or pheasant, between the 1st of February and the 20th day of October in each year, under a penalty of three dollars for each offense."

THAT DIAMOND ROBBERY.

J. A. White Makes His Escape—Young Green Thought to Be Innocent of the Theft.

Mention was made yesterday of the arrest at Lexington and Louisville of J. A. White, baggage master on the N. N. and M. V. Railroad, and T. A. Green, express messenger on same road, on the charge of breaking open a trunk some time in August and stealing diamonds to the value of \$800 at Lexington.

Their examining trial was set for today, but there will be no trial, as far as White is concerned, for he has succeeded in making his escape. It happened in this way: Most of the diamonds were recovered last week at Louisville. A fine ring, however, was missing and White informed the detectives that it was hidden along the road at a point about seventy miles east of Lexington and that he would turn it over to he was taken to the place. Yesterday morning he was placed in charge of a couple of officers, and the trio made their way to the spot. The ring was found hidden in a culvert and turned over to the minions of the law. All then boarded the train for Lexington. Shortly afterwards White was allowed to enter the water-closet. From here he climbed out the window and around on the platform and jumped off while the train was on a steep upgrade. His escape was not discovered for sometime afterwards.

White is undoubtedly the real culprit. He is said to have given a statement exonerating young Green.

Later information shows that White escaped while on his way to the spot where the ring was hidden. His statement follows:

LEXINGTON, KY., Sept. 13, 1889.

Owing to suspicions that has been placed against Thomas A. Green, I, John A. White, make the following statement: All diamonds that Thomas A. Green says he had settings changed for me, I also say were mine; he Thomas A. Green having no interest in said diamonds, but doing me a favor in having work done.

Railway News.

The formal opening of the Cumberland Gap Tunnel for railroad traffic has been announced for the 16th proximo.

President Ingalls, of the Big Four, has contracted for ten more engines, all to be ten-wheelers. They will be heavier than any now in service on the road, weighing 128,000 pounds each.

A railroad official who is well posted as to Southern roads states that the East Tennessee, Virginia and Georgia will undoubtedly secure control of the Kentucky Central road, and before January 1 will be running solid trains into Cincinnati.

The grain movement has received a marked check in the last few days. Less than 500 car-loads a day are now arriving in Chicago against 1,000 car-loads a month ago, and the falling off is fully as noticeable with the Louisville roads. It is doubtless due to the low prices offered for grain.

Weekly Crop Report.

The weekly crop bulletin of the Kentucky State Weather Service in co-operation with the U. S. Signal Service for the week ending Saturday, September 21, 1889, says: The weather during the early part of the week was warm for the season. On Wednesday a considerable decline in temperature occurred, which was followed on Friday by light frosts throughout the State. The damage, however, was very slight. About 50 per cent. of the tobacco crop is already housed, and with a week of good weather the remainder will be saved. The tobacco already cut is reported to be in good condition, and of excellent quality. The corn crop is fully matured and beyond damage by frost. Reports indicate that the crop will be one of the largest ever harvested in the State. Apples are very plentiful. Fall seeding and plowing progressing finely.

France is Satisfied

With the Result of the Election Last Sunday,

ALTHOUGH IT IS NOT YET DECIDED

Another Vote Required to Determine the Result—A Number of Districts Gave No Majorities and Will Hold Elections Next Sunday Again—Other Foreign Dispatches.

PARIS, Sept. 24.—Official reports have thus far been received from 536 divisions, of which the Republicans have carried 217 and the Revisionists 153. In the remaining 166 there has been no choice and rebalancing will be necessary. Among the prominent Republicans elected are M. M. Faillieres, Ribot, Jules Roche, Granet, Divelle, Dischaneille, Barbe, Farrien and Reinach. The opposition have elected M. M. De Cassagnac, Lalou, Fould, Haussmann, Godelle, Lanjumeau and Count Albert de Mun.

In 127 of the districts to be counted the result of the second ballot will probably be favorable to the Republicans and in the remaining thirty-nine the opposition can bid to be successful. This estimate is made by the Republicans themselves. The Republicans also rely upon their ability to secure ten colonial seats, and thus hold 354 seats in the new chamber. Everybody in official circles appears to believe that a Republican majority is assured, which, though not large, will be more compact and more homogeneous than the government majority in the last chamber.

The Boulangist vote in Paris was 192,300, against 244,070 last January. The Temps states that voting papers for Boulanger and Rochefort were burned, the matter will be referred to in the chamber.

Counting the papers alleged to have been destroyed the Boulangists polled 300,000 votes in the Seine department, against 226,000 for their opponents; but the Republican vote shows an increase of 97,064, compared with that of January.

The revisioning committee sits on Thursday to decide whether Boulanger shall be declared elected for Montmartre or a rebalot ordered.

M. Jules Ferry was defeated by a close vote. His brother, Albert, was elected in an Adjaccio district. M. Clous-Hugues is defeated.

M. Blowitz, correspondent of The London Times, says the chamber will annul the election of Boulanger by a sweeping majority.

The Temps says that the political complexion of the new chamber will be much the same as that of the old one. Many new men are returned, however, and a fresh element is added to parliamentary life. The republic ought to use its victory to give to its political action a consistency heretofore lacking.

The Liberte says that there will be no such change in the balance of power in the chamber as would have any serious influence upon the future of the republic.

The results of the elections produced a favorable impression on the bourse.

Comments of the German Press.

BERLIN, Sept. 24.—The National Zeitung regards the result of the French elections as favorable to the republic. The article is, however, couched in terms which indicate some doubt as to the result of the rebalot.

The Vossische Zeitung congratulates the republic upon its limited though undoubted victory.

The Tageblatt says that the results do not clear the situation. The position of the republic, despite the republican advantages, is still precarious.

Moorish Houses Destroyed in Battle.

MALAGA, Sept. 24.—It is reported that the Rifians fired upon the Spanish gunboat Cocodrillo, which returned the fire destroying a number of Moorish houses. The Rifians fired upon a boat which the Cocodrillo had sent with a flag of truce. It was for this outrage that the gunboat fired upon the town. The Cocodrillo then returned to the island fortress of Alhucemas.

Another Dock Strike in London.

LONDON, Sept. 24.—The stevedores employed on the East India dock have again gone out on a strike. They claim that the companies are not engaging the old hands as they agreed to when the strike was settled.

VIENNA, Sept. 24.—Emperor Francis Joseph has signified his wish that official circles cease talking about his coronation at Prague.

ARMY OF THE TENNESSEE.

Members of the Society Gathering at a Reunion in Cincinnati.

CINCINNATI, Sept. 24.—The society of the Army of the Tennessee has begun to gather in this city to hold their twenty-second annual reunion on the 25th and 26th. The headquarters will be at the Burnet house, where Gen. Sherman and about one hundred other guests will meet. On Wednesday night an interesting public meeting will be held at Music Hall. Sherman and his colleagues together with the Loyal Legion, being escorted to the hall by the local military and uniformed posts of the G. A. R. and Sons of Veterans.

Gen. Sherman will preside, during which an attractive program of exercises will be rendered. During the afternoon of Wednesday the society will be received at the residence of Gen. A. Hickenlooper. The business meeting of the society will be held at College hall on Thursday morning, and the banquet the same evening at the Burnet house, at which about one hundred in ties will be present. The annual address will be delivered by Gen. James F. Horr at Music Hall Wednesday night.

A TERRIFIC TORNADO.

One Life Lost and Hotel Property Destroyed in Florida.

JACKSONVILLE, Fla., Sept. 24.—A tornado passed over Peblo beach, sixteen miles from here, at 6 o'clock yesterday evening and did great damage to Murray hall, an immense beach hotel. The tin roof was torn off, the windows and doors burst in and the building left in a generally shattered condition. The servants' quarters and a carpenter shop near the hotel were completely demolished. Prince O'Neil, a boy 13 years old, was standing by the horse and buggy of Lawrence Haynes, near the dancing pavilion, awaiting the arrival of the evening train, the horse, vehicle and boy were lifted into the air and blown nearly 200 feet to the beach. The boy was killed outright. A freight car on a side track was lifted in the air, turned over twice and landed on the north side of the main track, sixty feet distance. A passenger train, due at 6 o'clock, was half an hour late owing to obstructions on the track. Hal it arrived on time a hundred cottagers returning from the city would doubtless have been killed or seriously injured.

The force of the wind was such that pieces of timber were driven through the two inch plank flooring of the railroad station, and were with great difficulty extricated for passage of the trains. The cottages escaped with little or no damage, and no serious injury to persons is reported beyond the death of the O'Neil boy. The damage to Murray hall and surroundings is estimated at \$10,000. It closed for the season last Wednesday. It is owned and managed by John G. Christopher, of this city, who is at present in Cincinnati. Great excitement prevails among the cottagers, but the weather is again perfectly calm. The tornado covered an area of not over seventy-five feet in its revolution, and buildings and persons outside of this circle were uninjured. The tornado was less than three minutes in duration and passed off towards the northeast.

Cloud Burst and Heavy Rainfall.

JACKSONVILLE, Fla., Sept. 24.—Torrents of rain fell all day and late yesterday afternoon there was an unprecedented electrical disturbance, followed by a hurricane and cloud burst which passed over the city to the east. Streets were flooded, sewers burst and pavements washed out. The rainfall was the heaviest on record here for the same length of time.

No Whites Need Apply.

NASHVILLE, Tenn., Sept. 24.—Very much interest is centered in a new departure by the blacks of Todd county, Ky., and Montgomery county, Tenn. They have organized a stock company, a capital of \$25,000, and will hold a county fair beginning Oct. 10. Every officer and employee is a black man. Only colored people can contest for premiums, which amount to \$1,000. Fifteen hundred dollars are offered for purses in the horse races, and only animals owned and ridden by negroes can enter. The blacks are taking immense interest in the affair and thousands will attend.

Trying to Purchase a Ball Ground.

CLEVELAND, Sept. 24.—President Joseph Stanley, of the Broadway street Railroad company, said that he had been approached by Al Johnson a short time ago and asked to lease a tract of land on Will-on avenue, this city, for use as a base ball ground. It is thought that Johnson was working in the interests of the Ball Players' Brotherhood, when he made the proposition to Stanley. The land was not secured.

Stabbed for His Interference.

FALMOUTH, Ky., Sept. 21.—Cen Collins was fatally stabbed by Henry Sargent during a meeting of young folks at the residence of John Smith, in the Modoc neighborhood, Saturday night. The quarrel was brought about by Collins' mischievous actions with the guests. Sargent is in jail.
